THE SPECULATIVE MARKETS

Wheat Opened Dull and a Shade Lower Yesterday.

THERE WAS A SLIGHT IMPROVEMENT LATER

Corn Began to Advance and There Was a Sharp Bulge in October Ribs-These Influences Early Affect Wheat and Other Cereats,

CRICAGO, Ill., Sept. 24.-While wheat opened dull today and for a time was a shade lower there was a slow but gradual hardening and an improvement in business, the price advancing a large fraction from last night's close, though it was not all held. The early trading influenced a good deal by the pronounced weakness which ruled at the close last night, and some of the longs who failed to get out yesterday were seeking to do so and the demand was light and confined largely to shorts who could cover at a satisfactory profit. A report of a fresh enciera attack in New York was also circulated. But the selling was soon over and the offerings grew light and prices began to harden. The

exports were quite generous. Corn began to advance and there was a sharp bulge in October ribs. These influences soon began to affect wheat and there was an easy rally of %c and the market held firm for some time, but without any very large trade. During the last hour the market weakened lac, but railled ac on good covering by shorts.

ige, but railled he on good covering by shorts, weakened again and closed steady. December opened he off at 75%c, soid at 75c advanced to 75%c, weakened to 76%c, railled to 75%c and closed steady at 75%c.

Corn was easy at the start on the fine weather and bearish crop reports. The seling was quite free and the demand much restricted. For a considerable time the market was quiet and steady, but a report that a co d wave was probable woke up the shorts and started them them to covering, resulting in a steady advance of he from the ciry price for October. The market remained steady and firm during the last hour, though May showed a tendency to lag behind October. October opened he lower at 4-%c, held for some time at from 45%c to 45%c, advanced to 46%c, weakened and closed at 45%c.

Oats were quiet, but firm throughout the session, closing at about yesterday's final flures.

Hog products were strong and higher. The closure in control of Octoberrips turned on the

session, closing at about yesterday's final figures.

Hog products were strong and higher. The clique in control of Octoberribs turned on the screws again, giving the shorts a severe twist. They were informed at the opening by the representatives of the clique that they could settle at \$0.65½. The close last night was \$8.75. The price bid was the same at the opening and it advanced by jumps of 0c and 25c until it reached the figures it was "pegged" at and a few shorts settled at that price, but the remainder, believing they could get in on better terms, held off reducing their bids, until, on the call, they were offered \$9.10, but the many pulators were still firm, holding out for \$0.50½. During the list hour the squeeze was relaxed for a short time, the price going down to \$0.50½. During the list hour the squeeze was relaxed for a short time, the price going down to \$0.50½. During the list hour the squeeze was relaxed for a short time, the price \$9.50½.

The transactions were limited and the excitement not nearly in proportion to the extreme advance in prices. Fork sympahized to a degree with the advance in ribs. October opened unchanged at \$0.20, asvanced during the forenoon to \$10.45; and put on a fresh sourt curing the afternoon, going up to \$1.0025.

Then it weakened to \$10.50 and closed at that price. October lard, after opening unchanged at \$1.50½. And advanced to and closed at that price. October lard, after opening unchanged at \$1.50½. And advanced to and closed at \$1.50½. Lake receipts \$1.00 wer at 2c forcorn to 8uffar a.

Estimated regeints for Monday: Wheat, 6.00.

fn o. Estimated receipts for Monday: Wheat, 6 cars; oats, 4 5 cars; hogs, 27,000 head and 130, to head next week.

Traders' Talk. CHICAGO, Ill., Sept. 24.—Counselman & Day to Cockrell Bros. Commission Co.: Wheat and an election of the state of

opened it ower on liquidation by tailers to the late local buil deal, but at the decline it is supposed that the origin 1 buil crowd took on their lines again. Prices advanced irregularly if from the bottom, hating occasionally on account of some cholera rumors, and closed it higher than yesterday. The important news was furnished by private despatches and samples confirming Prime's report to the effect that the vie d and quality of late threshings were very disappointing. Corn ruled firmer on a very active cash demand and a desire of shorts to cover, owing to the signal service predictions of freezing weather in Dukota and Minnesota and frosts as far south as Nebraska before Monday morning. Outs were painfully dull, but very firm, owing probably to an oversold condition of our market, due to the siles of October outs as hedges against parchases in New York. The provision market was worked from the Cudahy office, as puppets are now worked by a string. A good many shorts in October ribs band off the fiddler and quit dancing. A good many others still think that the fire under the hog iron will soon die out. We think that there is pienty of fire left and the latest shorts will receive the best roasting yet. Other product was affected by the desperate action of October ribs, and closed at a sharp advance.

shorts will receive the best roasting yet. Other product was affected by the desperate action of Octobor ribs, and closed at a sharp advance.

Chicago, Ill., Sont, 24.—Kennett, Hopkins & Co. to S.A. McWhorter: The sellingoutyesterday of a big tine of wheat by a prominent local operator was misleading to room traders. They jumped to the conclusion that the buil movement was over and put their houses in order for a landstide. They discovered their mistake this morning. As time passes they are likely to realize with more clearness that blaying for a break at current prees is not such a sure thing as it used to be. There is evidence to support a belief that the market has turned in corn as it has in wheat. Bear nows has been exhausted. Testimony is accumulating that a very considerable port on of the maturing crop is so soft that it can never be marketable unless frost hoids off much longer than usual. The next rovernment report is existed to show a yield of not over 1600,001.0 busilels, and later on when poor quality is definitely determined it is not unlikely that this may be cut down to 1,520,000,000 bushels. Oats have recovered somewhat from their depression and look like a fair ourchase on the breaks. There was another twist of the screw for October ribs and the manipulation extended to other products for near deliveries.

CHICAGO, Ill., Sopt. 24.—F. G. Logan & Co. to Duncan. Hollinger & Co.: The wheat market opened with a light business at 76½ for December. A very little buying caused a steady advance to 762, On some rentizing the price dropped off to 762,6765; which brought in some fresh orders and it again advanced to 763, and 763. The closting price was 505 and May \$13. Since writing our letter yesterday the position is unchanged. One or two more solid sound thinking men have joined the small band who believe wheat is too low and is a safe purchase for investment. They have acted on this opinion and have been good buyers. One argument for higher prices is that our stock of contract grade amounts to 25,0,00

STOCKS AND BONDS.

Considerable Activity Was Developed in Securities Yesterday.

New York. Sept. 24 - The day in Wall street was little more than the closing of a speculation which has developed considerable activity in the stock market and served to make a substantial reaction from the depression caused by the cholera scare. There was little feature to the trading. The 1 st was quiet and held within narrow limits throughout the day, except Louisville, which was still pressed for sale and declined a frac-Gould's brokers were buyers of Missouri Pacific and Texas Pacific, but the pres-sure upon the leader settled the list away slowly until after the publication of the bank statement, which again showed a slight gain in the surplus reserve. .The only really strong point in the list was

Wheeling & Lake Erle preferred, whose gain was 15 per cent, new, but the influence of this was more than offset by a grop of 15 per cent in Lackawanna on very light trading. The trading was barren of feature and the close was stendy with most stocks at slight losses from last evening's figures. Bonds were, if anything, more active than usual, but while a firm temper was maintained the changes were few in number. The sales were 154,000, of which West Point fives contributed \$120,000 and Reading thirds \$10,000. The sales of stock were 124,844 shares listed and 6,135 unlisted. Reading furnishing 40,600.

Government bonds have been duil and steady, State bonds duil and steady.

The Post says: A comparison of city bank and United States treasury holdings today day with those at the opening of August, when treasury reserves were at their low ebb, illustrates the remark, bie change which has since come over the distribution of money. At that time it will be remembered there was a great outerly against the action of the banks in holding back gold certificates and throwing the burden of export gold withdrawals upon the treasury.

Pessimists here and in London were talking of the early extinction of the treasury marking of the say extinction of the treasury marking of the early extinction of the treasury marking of the say extinction of the treasury was a tributable to the westward movement of currency usual at this season, it means also the payment from the banks into the treasury of something like \$10,00,000.

London Financial Review.

[Copyrighted 1892 by James Gordon Bennett.]

London, Sept 24.—[New York Herald Cable—Special to The Bre.]—This has been a very quiet day on the Stock exchange, for not only has the attenuance of members been smaller than usual on Saturday, but the fact of the settlement being Bear tended to deter operators from entering into new engagements. Funds are unchanged, while Indian rupee paper improved \(\frac{1}{2}\)d. Home railway securities close rather irreduan. Owing to the very few dealings changes of prices are quite un mportant. American railways met with a fair amount of attention from inside operators, and have been tolerably firm from opening to close, advices from New York being more reassuring. Lake Shore leaves off I higher and most others from \(\frac{1}{2}\)to 16. Miscellaneous securities have been neglected. Beyond a fall of \(\frac{1}{2}\)a in Coats ditto preference and Pears ordinary they are unchanged. Money has been quite a drug. Short loans have been ensity obtained. The discount market has been quiet. Two and three months' bills were quoted at 1 to 11-16 per cent. London Financial Review. New York Money Market.

NEW YORK, Sept. 24.—MONEY on CALL—Ensy, with no loans, and closing offered at 3½ per cent.
PRIME MERCANTILE PAPER—43, 3614 per cent.
STERLING EXCHANGE—Steady at \$1.8514 for sixty-day bills and \$4.87 for demand.

NEW MEXICO CATTLE.

has come a correspondingly improved demand for the light and butcher weight stuff and these are selling relatively better than the heavier weights. Until within the last few days however, the range of prices has been very narrow. Packers have been bearing down on the rough, heavy and "sowey" hots of late and prices have given way badly on these grades.

rese grades.
The week closed with a very fair supply.

best of materials, assembled by expert mechanics, in the finest equipped factory in the world, show conclusively, to the unprejudiced, that this machine is the most durable and has more improvements.

receipts this week compared with a year ago of about 4,500 head, the market has experienced no particularly noteworthy change elter for better or worse. In fact, the trade has been monotonously steady throughout. As usual, at this time of the year, the market has been but indifferently supplied with good beef cattle, either natives or westerns, but the avidity with which the few choice bunches offered were snapped up and the very respectable figures they brought showed how strong the market really was on this class of stuff. Cornfed natives have sold readily as high as \$4.00 and \$5.10, and there have been plenty of western cattle here that brought from \$3.50 to \$2.50. In general prices were well maintained on all desirable offerings, there was naturally a tendency to neglect the common and inferior cattle, and holders of this class of stuff reported the market more or less duil and unsatisfactory all week, although prices show little or no change compared with a week ago. The feeling throughout has been rather firm then otherwise.

In the butchers stock and canner line the tendency has been to better prices. Offerings have not been as liberal as might have been expected, considering the big increase in receipts, and it is mainly on this account that prices have developed the strength they have. The market is not really strong yet, but it is a big improvement over last week on all the better grades. Canners of course are still too freely offered to admit of any material improvement in prices.

in prices.
The stocker and fee ier trade has been char-The stocker and feeder trade has been characterized by great activity, and netwithstanding the very liberal supplies the sharp advance of the week previous has been well maintained. Good, smooth steers of weight and quality are snapped up at good figures, and while trade in the underweight stuff is occasionally a trifle slow, anything at all decent doesn't have to go begging very long for a purchaser.

occasionary a trine soon begging very long for a purchaser.

Cattle offerings were rather larger than usual for a Saturday, and to put it mildly the quality was decidedly indifferent. There was the very good general demand that we have had all week and sellers had little difficulty in disposing of desirable or useful stock satisfactorily, but when it came to the "betwixt and between" cattle—cattle not good enough for beef and too good for feeders—the trade was rather slow. A bunch of half-fat 1,28-ib. steers brought \$3.53. The westerns sold at all sorts of prices at from \$2.35 to \$1.25, but the yards were pretty well cleared by the close.

Cows and mixed stock sold at generally stronger prices, the extrame range being from \$1.00 to \$2.15. The buik of the fair to good stuff sold at from \$1.30 to \$2.10. Buils, oxen and stags were generally unchanged, selling at from \$1.35 to \$2.50. Catves were in moderate supply, fair demand, and firm at from \$2.00 to \$4.25.

The stocker and feeder-trade was not overly

The stocker and feeder trade was not overly lively—it never is on Saturday—but while there was not a very good country demand, the regular dealers were all good buyers, and prices held firm on everything desirable. Representative sales:

WESTERN CATTLE.

COLORADO CATTLE.

The week closed with a very fair supply. There were nearly twice as many hogs here as last Saturday but the quality as a whole was nothing extra. With a good fresh meat, shipping and speculative demand the market opened steady on good light and butcher weight hogs and on the best heavies with sales lar ely at from 45.2 to 45.30. Packers were very bearish from start to finish, and after urgent fresh meat and shipping orders had been filled the mirket raied be to 10c lower on all but the very best hogs. Kough heavy and mixed packers sold from \$4.974 to \$5.15, and were slow sale at that. Most of the hogs selling at \$5.20 or better were more or less sorted, the rough heavy ends and throwouts selling at from \$4.75 to \$4.85. Everything sold, the pens being cleared before noon. Sales were larsely at from \$.05 to \$5.34, against \$1.15 to \$6.25 Friday. The general average of prices pild was \$5.154, against \$5.20 Fr day and \$5.154 last Saturday. metta, N. J., created much excitement in that vicinity. Investigation showed that the disease was not cholora but a violent dysentery, which is almost as severe and danger-ous as choiera. Mr. Walter Willard, a prominent merchant of Jamesburg, two miles from Heimetta, says Chamberlain's Colic, Cholera and Diarrhæs Remedy has given great satisfaction in the most severe cases of dysentery. It is certainly one of the best things ever made. For sale by druggists.

While Mrs. Joseph Bell of 2111 South Thirteenth street was preparing breakfast yesterday the gasoline stove exploded throwing the burning fluid over her face and The woman was seriously purced, but will recover with nothing more serious than ascarred face.

The fire department was called, but the

flames had been extinguished before the trucks arrived. STUHT'S SMART SCHEME.

He Forestalled the Council by Laying a Walk After Midnight.

Ernest Stuht has an idea that he is about the largest man in town. He fee that he has scored a point on the city council. Friday night the council passed a resclution ordering J. W. Furnas & Son to discontinue laying a permanent walk, twenty-two feet wide, in front of Charles P. Birkett's property on Mason

Stuht was present when the resolution was adopted. He at once left the room, woke up the Furnases who got out their gangs of sidewalk layers and at daylight vesterday morning the walk was down.
Shortly after 8 o'clock the chairman of the

Board of Public Works sent his clerk to serve a copy of the resolution on Furnas. When he reached the point where he expected to find men at work he discovered nothing but Stuht and a completed walk. Stuht was dancing about and entertaining a crowd of people by telling them how he had got ahead of the council and all of the city departments. Cholera

When properly treated as soon as the first symptoms appear, cholera can nearly always be cured. The patient should go immediately to hed and remain as quiet as possible. Send for a physician, but while awaiting his arrival take Chamberlain's Colic, Cholera and Diarrhona Remedy in double doses after each operation of the bowels more than natural. If there is severe pain or cramps take it in double doses every fifteen minutes until relieved. This remedy has been used with great success in seven epidemics of dysentery that were almost as severe and dangerous as cholera, and if used as directed a cure is almost certain. Every family should have a 50-cent bottle at hand ready for in stant use. After the disease is under control castor oil must be taken to cleanse the system. No other physic or substitute will do in place of castor oil. For sale by drug-

Custom House Receipts. Following are the receipts of the Omaha custom house for the week ending Septemper 24: 440,000 pounds tin plate for Cudahy Packing company from Swansea, Wales; 42,000 pound tin plates for Rector-Wilhelmy company from Swansea, Wales; one case dress trimmings for Morse Dry Goods company from Paris; one case cigars for Max Meyer & Co. from Havana.

"Late to bed and early to rise will shorten the road to your home in the skies. But early to bed and "Little Early Riser." the pill that mages life longer and better and wiser.
